What is LevelUp Mentorship Program Ascend (LMP Ascend)?

The LevelUp Mentorship Program Ascend is a comprehensive, structured, and personalized preparation ecosystem designed to guide aspirants from the very beginning of their journey to final selection.

This program is not a generic offering—it is the outcome of deep research and careful evaluation of mentorship models available to aspirants. During this process, we identified some critical gaps that consistently held aspirants back:

Lack of a well-defined and structured test ecosystem

Delayed or inadequate support for Essay and Ethics

Mentors handling excessive load, leading to limited personal attention

Limited answer discussion and meaningful feedback

Poor integration between Prelims and Mains preparation

Absence of consistent faculty-driven doubt resolution

This program is built to address these gaps in a systematic and result-oriented manner.

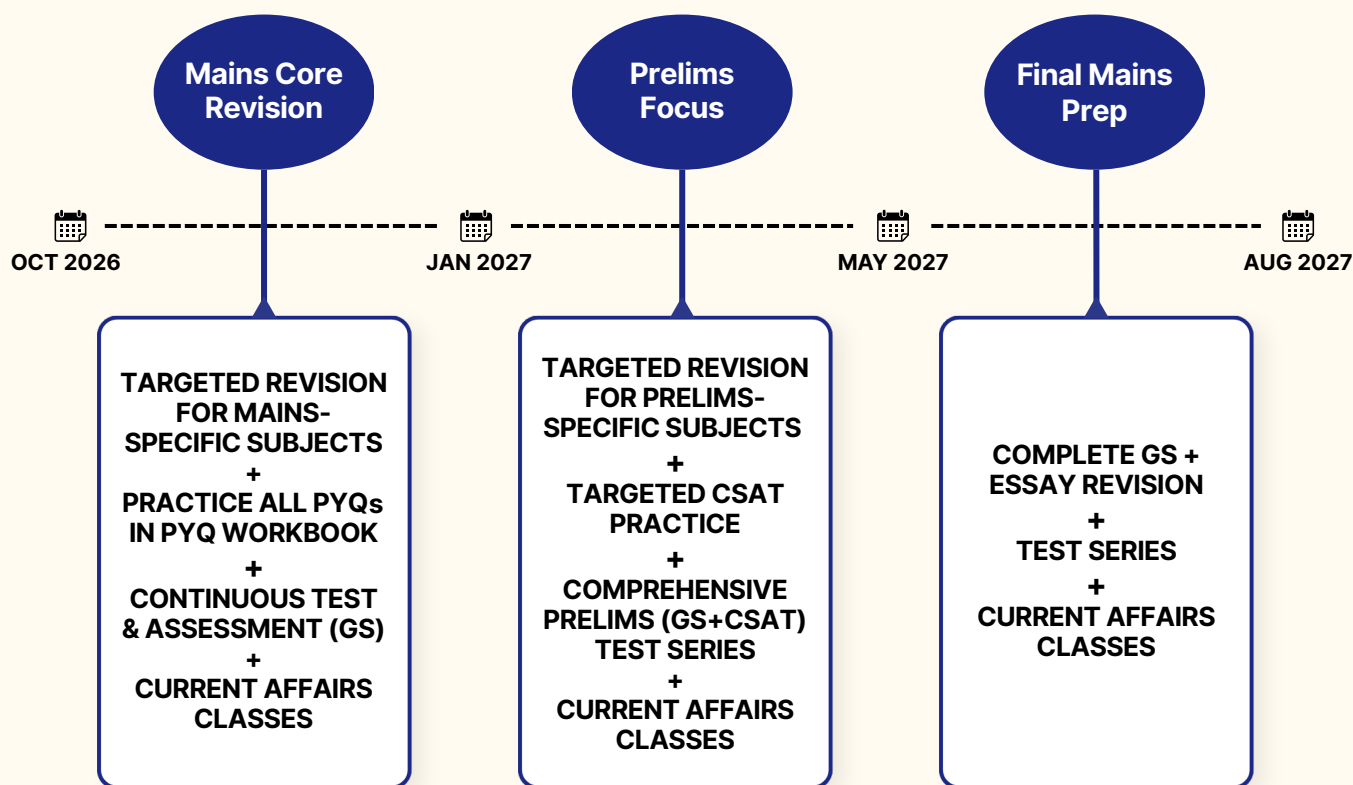

We have created a model where an aspirant no longer needs to rely on multiple courses or scattered resources for General Studies.

From mentorship and testing to content, revision, evaluation, and continuous guidance—everything is integrated into one cohesive system.

Once you join, your entire GS preparation is streamlined and taken care of under one program.
