“Live as if you were to die tomorrow. Learn as if you were to live forever.”

- Mahatma Gandhi

About this Course:-

This course caters to the needs of the students appearing for CSE Main 2020. It focuses on the significant Current Affairs of the recent years keeping in mind its role in the preparation of GS-2 and GS-3 papers. While doing so, we not only cover the recent developments in an analytical manner, but also comprehensively deal with the themes and topics that are in the syllabus.

It will also be synchronised with our GS Main Test Series so that together, you get a holistic exposure, disciplined and systematic schedule, and strategic preparation.

Series Pattern:-

- In every class, of 2.5 hours, we will cover 5 topics and also write an answer on each of these topics in the class itself. This will ensure that around 20 questions will be written by an aspirant every week and by the time of the Mains exam, she would have written approximately 160 answers on 160 most relevant topics.
- Our method focuses more on application of the knowledge and practicing more and more answer writing rather than dictation of notes by the teacher. Therefore, all the relevant class-notes will be made available to you before class.

About Santosh Kumar:-

He has emerged as the biggest name for Current Affairs, S&T and Environment in Delhi. He has taught the largest Batch exclusively for Current Affairs in Delhi for the 2019-20 as well as 2020-21 Preliminary Examination. He is especially known for his exhaustive coverage, student-friendly approach and exam-centric preparation.

He has completed his B.Tech in Computer Science & Engineering from IIT Roorkee and has also worked as a Software Engineer with Microsoft.
